JURISDICTION OF THE COMMITTEE ON COMMERCE, SCIENCE, AND TRANSPORTATION

Extract from Rule XXV of the Standing Rules of the Senate

1. The following standing committees shall be appointed at the commencement of each Congress, and shall continue and have the power to act until their successors are appointed, with leave to report by bill or otherwise on matters within their respective jurisdictions:

(f) (1) **Committee on Commerce, Science, and Transportation**[1], to which committee shall be referred all proposed legislation, messages, petitions, memorials, and other matters relating to the following subjects:

1. Coast Guard.
2. Coastal zone management.
3. Communications.
4. Highway safety.
5. Inland waterways, except construction.[2]
6. Interstate commerce.
7. Marine and ocean navigation, safety, and transportation, including navigational aspects of deepwater ports.
8. Marine fisheries.
9. Merchant marine and navigation.
10. Nonmilitary aeronautical and space sciences.[3]
11. Oceans, weather, and atmospheric activities.
12. Panama Canal and interoceanic canals generally, except as provided in subparagraph (c)[4].
13. Regulation of consumer products and services, including testing related to toxic substances, other than pesticides, and except for credit, financial services, and housing.
14. Regulation of interstate common carriers, including railroads, buses, trucks, vessels, pipelines, and civil aviation.
15. Science, engineering, and technology research and development and policy.
16. Sports.
17. Standards and measurement.
18. Transportation.[2]
19. Transportation and commerce aspects of Outer Continental Shelf lands.

(2) Such committee shall also study and review, on a comprehensive basis, all matters relating to science and technology, oceans policy, transportation, communications, and consumer affairs, and report thereon from time to time.

---

[1]Formerly the Committee on Commerce, name changed effective February 11, 1977. In accordance with the provisions of Rule XXV of the Standing Rules of the Senate, as amended by S. Res. 362, agreed to January 27, 1978, the membership of the Committee on Commerce, Science and Transportation consists of seventeen Senators. S. Res. 14, agreed to January 6, 1987, increased the membership of the Committee on Commerce, Science, and Transportation to twenty Senators.

[2]See also the jurisdiction of the Committee on Environment and Public Works, with respect to construction and maintenance of waterways and highways.

[3]See also the jurisdiction of the Committee on Armed Services with respect to aeronautical and space activities peculiar to or primarily associated with the development of weapon systems or military operations.

[4]Paragraph (c) confers jurisdiction upon the Committee on Armed Services for matters relating to "Maintenance and operation of the Panama Canal, including administration, sanitation, and government of the Canal Zone."

RULES OF THE COMMITTEE ON COMMERCE, SCIENCE, AND TRANSPORTATION[1]

I. MEETINGS OF THE COMMITTEE

1. The regular meeting dates of the Committee shall be the first and third Tuesdays of each month. Additional meetings may be called by the Chairman as he may deem necessary or pursuant to the provisions of paragraph 3 of rule XXVI of the Standing rules of the Senate.

2. Meetings of the Committee, or any subcommittee, including meetings to conduct hearings, shall be open to the public, except that a meeting or series of meetings by the Committee, or any subcommittee, on the same subject for a period of no more than 14 calendar days may be closed to the public on a motion made and seconded to go into closed session to discuss only whether the matters enumerated in subparagraphs (A) through (F) would require the meeting to be closed followed immediately by a record vote in open session by a majority of the members of the Committee, or any subcommittee, when it is determined that the matters to be discussed or the testimony to be taken at such meeting or meetings —

   (A) will disclose matters necessary to be kept secret in the interests of national defense or the confidential conduct of the foreign relations of the United States;

   (B) will relate solely to matters of Committee staff personnel or internal staff management or procedure;

   (C) will tend to charge an individual with crime or misconduct, to disgrace or injure the professional standing of an individual, or otherwise to expose an individual to public contempt or obloquy, or will represent a clearly unwarranted invasion of the privacy of an individual;

   (D) will disclose the identity of any informer or law enforcement agent or will disclose any information relating to the investigation or prosecution of a criminal offense that is required to be kept secret in the interests of effective law enforcement;

   (E) will disclose information relating to the trade secrets of financial or commercial information pertaining specifically to a given person if —

      (1) an Act of Congress requires the information to be kept confidential by Government officers and employees; or

      (2) the information has been obtained by the Government on a confidential basis, other than through an application by such person for a specific Government financial or other benefit, and is required to be kept secret in order to prevent undue injury to the competitive position of such person; or

   (F) may divulge matters required to be kept confidential under other provisions of law or Government regulations.

3. Each witness who is to appear before the Committee or any subcommittee shall file with the Committee, at least 24 hours in advance of the hearing, a written statement of his testimony in as many copies as the Chairman of the Committee or Subcommittee prescribes.

4. Field hearings of the full Committee, and any subcommittee thereof, shall be scheduled only when authorized by the Chairman and ranking minority member of the full Committee.

---

[1]Adopted by the Committee of Commerce, Science, and Transportation on January 15, 1987. Printed in the Congressional record on February 26, 1987 *(S2427)*, pursuant to Senate Rule XXVI.

II. QUORUMS

1. Eleven members shall constitute a quorum for official action of the Committee when reporting a bill or nomination; provided that proxies shall not be counted in making a quorum.

2. Seven members shall constitute a quorum for the transaction of all business as may be considered by the Committee, except for the reporting of a bill or nomination; provided that proxies shall not be counted in making a quorum.

3. For the purpose of taking sworn testimony a quorum of the Committee and each subcommittee thereof, now or hereafter appointed, shall consist of one Senator.

III. PROXIES

When a record vote is taken in the Committee on any bill, resolution, amendment, or any other question, a majority of the members being present, a member who is unable to attend the meeting may submit his vote by proxy, in writing or by telephone, or through personal instructions.

IV. BROADCASTING OF HEARINGS

Public hearings of the full Committee, or any subcommittee thereof, shall be televised or broadcast only when authorized by the Chairman and the ranking minority member of the full Committee.

V. SUBCOMMITTEES

1. Any member of the Committee may sit with any subcommittee during its hearings or any other meeting but shall not have the authority to vote on any matter before the subcommittee unless he is a Member of such subcommittee.

2. Subcommittees shall be considered *de novo* whenever there is a change in the chairmanship, and seniority on the particular subcommittee shall not necessarily apply.

PROVISIONS RELATING TO AUTHORITY AND PROCEDURE OF COMMITTEES OF THE SENATE

Rule XXVI of the Standing Rules of the Senate

Committee Procedure

1. Each standing committee of the Senate, including any subcommittee of any such committee, is authorized to hold such hearings, to sit and act at such times and places during the sessions, recesses, and adjourned periods of the Senate, to require by subpoena or otherwise the attendance of such witnesses and the production of such correspondence, books, papers, and documents, to take such testimony and to make such expenditures (not in excess of $10,000 for each committee during any Congress) as it deems advisable. Each such committee may make investigations into any matter within its jurisdiction, may report such hearings as may be had by it, and may employ stenographic assistance at a cost not exceeding the amount prescribed by the committee on Rules and Administration. The expenses of the committee shall be paid from the contingent fund of the Senate upon vouchers approved by the chairman.

2. Each committee shall adopt rules (not inconsistent with the rules of the Senate) governing the procedure of such committee. The rules of each committee shall be published in the Congressional Record not later than March 1 of each year, except that if any such committee is established on or after February 1 of a year, the rules of that committee during the year of establishment shall be published in the Congressional Record not later than 60 days after such establishment. An amendment to the rules of any such committee shall be published in the Congressional Record not later than 30 days after the adoption of such amendment. If the Congressional Record is not published on the last day of any period referred to above, such period shall be extended until the first day thereafter on which it is published.

3. Each standing committee (except the Committee on Appropriations) shall fix regular weekly, biweekly, or monthly meeting days for the transaction of business before the committee, and additional meetings may be called by the chairman as he may deem necessary. If at least 3 members of any such committee desire that a special meeting of the committee be called by the chairman, those members may file in the offices of the committee their written request to the chairman for that special meeting. Immediately upon the filing of the request, the clerk of the committee shall notify the chairman of the filing of the request. If, within 3 calendar days after the filing of the request, the chairman does not call the requested special meeting, to be held within 7 calendar days after the filing of the request, a majority of the members of the committee may file in the offices of the committee their written notice, that a special meeting of the committee will be held, specifying the date and hour of that special meeting. The committee shall meet at that date and hour.

   Immediately upon the filing of the notice, the clerk of the committee shall notify all members of the committee that such special meeting will be held and inform them of its date and hour. If the chairman of any such committee is not present at any regular, additional, or special meeting of the committee, the ranking member of the majority party on the committee who is present shall preside at that meeting.

4. (a) Each committee (except the Committee on Appropriations and the Committee on the Budget) shall make public announcement of the date, place, and subject matter of any hearing to be conducted by the committee on any measure or matter at least 1 week before the commencement of that hearing unless the committee determines that there is good cause to begin such hearing at an earlier date.

   (b) Each committee (except the Committee on Appropriations) shall require each witness who is to appear before the committee in any hearing to file with the clerk of the committee, at least 1 day before the date of the appearance of that witness, a written statement of his proposed testimony unless the committee chairman and the ranking minority member determine that there is good cause for noncompliance. If so requested by any committee, the staff of the committee shall prepare for the use of the members of the committee before each day of hearing before the committee a digest of the statements which have been so filed by witnesses who are to appear before the committee on that day.

   (c) After the conclusion of each day of hearings, if so requested by any committee, the staff shall prepare for the use of the members of the committee a summary of the testimony given before the committee on that day. After approval by the chairman and ranking minority member of the committee, each such summary may be printed as a part of the committee hearings if such hearings are ordered by the committee to be printed.

   (d) Whenever any hearing is conducted by a committee (except the Committee on Appropriations) upon any measure or matter the minority on the committee shall be entitled, upon request made by a majority of the minority members to the chairman before the completion of such hearing, to call witnesses selected by the minority to testify with respect to the measure or matter during at least one day of hearing thereon.

5. (a) Notwithstanding any other provision of the rules, when the Senate is in session, no committee of the Senate or any subcommittee thereof may meet, without special leave, after the conclusion of the first 2 hours after the meeting of the Senate commenced and in no case after 2 o'clock post-meridian unless consent therefor has been obtained from the majority leader and the minority leader (or in the event of the absence of either of such leaders, from his designee). The prohibition contained in the preceding sentence shall not apply to the Committee on Appropriations or the Committee on the Budget. The majority leader or his designee shall announce to the Senate whenever consent has been given under this subparagraph and shall state the time and place of such meeting. The right to make such announcement of consent shall have the same priority as the filing of a cloture motion.

(b) Each meeting of a committee, or any subcommittee, including meetings to conduct hearings, shall be open to the public, except that a meeting or series of meetings by a committee or a subcommittee thereof on the same subject for a period of no more than 14 calendar days may be closed to the public on a motion made and seconded to go into closed session to discuss only whether the matters enumerated in clauses (1) through (6) would require the meeting to be closed, followed immediately by a record vote in open session by a majority of the members of the committee or subcommittee when it is determined that the matters to be discussed or the testimony to be taken at such meeting or meetings —

(1) will disclose matters necessary to be kept secret in the interests of national defense or the confidential conduct of the foreign relations of the United States;

(2) will relate solely to matters of committee staff personnel or internal staff management or procedure;

(3) will tend to charge an individual with crime or misconduct, to disgrace or injure the professional standing of an individual, or otherwise to expose an individual to public contempt or obloquy, or will represent a clearly unwarranted invasion of the privacy of an individual;

(4) will disclose the identity of any informer or law enforcement agent or will disclose any information relating to the investigation or prosecution of a criminal offense that is required to be kept secret in the interests of effective law enforcement;

(5) will disclose information relating to the trade secrets of financial or commercial information pertaining specifically to a given person if —

(A) an Act of Congress requires the information to be kept confidential by Government officers and employees; or

(B) the information has been obtained by the Government on a confidential basis, other than through an application by such person for a specific Government financial or other benefit, and is required to be kept secret in order to prevent undue injury to the competitive position of such person; or

(6) may divulge matters required to be kept confidential under other provisions of law or Government regulations.

(c) Whenever any hearing conducted by any such committee or subcommittee is open to the public, that hearing may be broadcast by radio or television, or both, under such rules as the committee or subcommittee may adopt.

(d) Whenever disorder arises during a committee meeting that is open to the public, or any demonstration of approval or disapproval is indulged in by any person in attendance at any such meeting, it shall be the duty of the Chair to enforce order on his own initiative and without any point of order being made by a Senator. When the Chair finds it necessary to maintain order, he shall have the power to clear the room, and the committee may act in closed session for so long as there is doubt of the assurance of order.

(e) Each committee shall prepare and keep a complete transcript or electronic recording adequate to fully record the proceeding of each meeting or conference whether or not such meeting or any part thereof is closed under this paragraph, unless a majority of its members vote to forgo such a record.

6. Morning meetings of committees and subcommittees thereof shall be scheduled for one or both of the periods prescribed in this paragraph. The first period shall end at 11 o'clock antemeridian. The second period shall begin at 11 o'clock antemeridian and end at 2 o'clock postmeridian.

7. (a) (1) Except as provided in this paragraph, each committee, and each subcommittee thereof is authorized to fix the number of its members (but not less than one-third of its entire membership) who shall constitute a quorum thereof for the transaction of such business as may be considered by said committee, except that no measure or matter or recommendation shall be reported from any committee unless a majority of the committee were physically present.

(2) Each such committee, or subcommittee, is authorized to fix a lesser number than one-third of its entire membership who shall constitute a quorum thereof for the purpose of taking sworn testimony.

(3) The vote of any committee to report a measure or matter shall require the concurrence of a majority of the members of the committee who are present. No vote of any member of any committee to report a measure or matter may be cast by proxy if rules adopted by such committee forbid the casting of votes for that purpose by proxy; however, proxies may not be voted when the absent committee member has not been informed of the matter on which he is being recorded and has not affirmatively requested that he be so recorded. Action by any committee in reporting any measure or matter in

accordance with the requirements of this subparagraph shall constitute the ratification by the committee of all action theretofore taken by the committee with respect to that measure or matter, including votes taken upon the measure or matter or any amendment thereto, and no point of order shall lie with respect to that measure or matter on the ground that such previous action with respect thereto by such committee was not taken in compliance with such requirements.

(b) Each committee (except the Committee on Appropriations) shall keep a complete record of all committee action. Such record shall include a record of the votes on any question on which a record vote is demanded. The results of rollcall votes taken in any meeting of any committee upon any measure, or any amendment thereto, shall be announced in the committee report on that measure unless previously announced by the committee, and such announcement shall include a tabulation of the votes cast in favor of and the votes cast in opposition to each such measure and amendment by each member of the committee who was present at that meeting.

(c) Whenever any committee by rollcall vote reports any measure or matter, the report of the committee upon such measure or matter shall include a tabulation of the votes cast by each member of the committee in favor of and in opposition to such measure or matter. Nothing contained in the subparagraph shall abrogate the power of any committee of the Senate to adopt rules —

(1) providing for proxy voting on all matters other than the reporting of a measure or matter, or

(2) providing in accordance with subparagraph (a) for a lesser number as a quorum for any action other than the reporting of a measure or matter.

8. (a) In order to assist the Senate in —

(1) its analysis, appraisal, and evaluation of the application, administration, and execution of the laws enacted by the Congress, and

(2) its formulation, consideration, and enactment of such modifications of or changes in those laws, and of such additional legislation, as may be necessary or appropriate, each standing committee (except the Committees on Appropriations and the Budget) shall review and study, on a continuing basis, the application, administration, and execution of those laws, or parts of laws, the subject matter of which is within the jurisdiction of that committee. Such committees may carry out the required analysis, appraisal, and evaluation themselves, or by contract, or may require a Government agency to do so and furnish a report thereon to the Senate. Such committees may rely on such techniques as pilot testing, analysis of costs in comparison with benefits, or provisions for evaluation after a defined period of time.

(b) In each odd-numbered year, each such committee shall submit, not later than March 31, to the Senate, a report on the activities of that committee under this paragraph during the Congress ending at noon on January 3 of such year.

9. Each committee which requires authorization for the expenditure of funds in excess of the amount specified in paragraph 1 of this rule shall offer one annual authorization resolution to procure such authorization. Each such annual authorization resolution shall include a specification of the amount of all such funds sought by such committee. The annual authorization resolution of any committee shall be offered not later than January 31 of that year, except that, whenever the designation of members of committees occurs during the first session of any Congress at a date later than January 20, such resolution may be offered at any time within 30 days after the date on which the members of such committees are designated. After the date on which an annual authorization resolution has been offered by any committee in any year, such committee in that year may procure authorization for additional expenditures only by offering a supplemental authorization resolution. Each such supplemental authorization resolution shall include a specification of the amount of all supplemental funds sought by that committee. Each such supplemental authorization resolution shall amend the annual authorization resolution of such committee for that year unless the committee offered no annual authorization resolution for that year, in which case the committee's supplemental authorization resolution shall not be an amendment to any other resolution and any subsequent supplemental authorization resolution of such committee for the same year shall amend the first such resolution offered by the committee for that year. Each such supplemental resolution reported by such committee shall be accompanied by a report to the Senate specifying with particularity the purpose for which such authorization is sought and the reason why such authorization could not have been sought at the time of, or within the period provided for, the submission by such committee of an annual authorization resolution for that year. This paragraph shall not apply to any resolution requesting funds in addition to the amount specified in paragraph 1 and which are to be expended only for the same purposes for which such amount may be expended. This subparagraph does not apply to the Committee on Appropriations.

10. (a) All committee hearings, records, data, charts, and files shall be kept separate and distinct from the congressional office records of the Member serving as chairman of the committee and such records shall be the property of the Senate and all members of the committee and the Senate shall have access to such records. Each committee is authorized to have printed and bound such testimony and other data presented at hearings held by the committee.

(b) It shall be the duty of the chairman of each committee of the Senate to report or cause to be reported promptly to the Senate any measure approved by his committee and to take or cause to be taken necessary steps to bring the matter to a vote. In any event, the report of any committee upon a measure which has been approved by the committee shall be filed within 7 calendar days (exclusive of days on which the Senate is not in session) after the day on which there has been filed with the clerk of the committee a written and signed request of a majority of the committee for the reporting of that measure. Upon the filing of any such request, the clerk of the committee shall transmit immediately to the chairman of the committee notice of the filing of that request. This subparagraph does not apply to the Committee on Appropriations.

(c) If, at the time of approval of a measure or a matter by any committee (except for the Committee on Appropriations), any member of the committee gives notice of intention to file supplemental, minority, or additional views, that member shall be entitled to not less than 3 calendar days in which to file such views in writing with the clerk of the committee. All such views so filed by one or more members of the committee shall be included within, and shall be a part of, the report filed by the committee with respect to that measure or matter. The report of the committee upon that measure or matter shall be printed in a single volume which —

(1) shall include all supplemental, minority, or additional views which have been submitted by the time of the filing of the report, and

(2) shall bear upon its cover a recital that supplemental, minority, or additional views are included as part of the report.

This subparagraph does not preclude —

(A) the immediate filing and printing of a committee report unless timely request for the opportunity to file supplemental, minority, or additional views has been made as provided by this subparagraph; or

(B) the filing by any such committee of any supplemental report upon any measure or matter which may be required for the correction of any technical error in a previous report made by that committee upon that measure or matter.

11. (a) The report accompanying each bill or joint resolution of a public character reported by any committee (except the Committee on Appropriations and the Committee on the Budget) shall contain —

(1) an estimate, made by such committee, of the costs which would be incurred in carrying out such bill or joint resolution in the fiscal year in which it is reported and in each of the five fiscal years following such fiscal year (or for the authorized duration of any program authorized by such bill or joint resolution, if less than five years), except that, in the case of measures affecting the revenues, such reports shall require only an estimate of the gain or loss in revenues for a one-year period; and

(2) a comparison of the estimate of costs described in subparagraph (1) made by such commitee with any estimate of costs made by any Federal agency; or

(3) in lieu of such estimate or comparison, or both, a statement of the reasons why compliance by the committee with the requirements of subparagraph (1) or (2), or both, is impracticable.

(b) Each such report (except those by the Committee on Appropriations) shall also contain —

(1) an evaluation, made by such committee, of the regulatory impact which would be incurred in carrying out the bill or joint resolution. The evaluation shall include (A) an estimate of the numbers of individuals and businesses who would be regulated and a determination of the groups and classes of such individuals and businesses, (B) a determination of the economic impact of such regulation on the individuals, consumers and businesses affected, (C) a determination of the impact on the personal privacy of the individuals affected, and (D) a determination of the amount of additional paperwork that will result from the regulations to be promulgated pursuant to the bill or joint resolution, which determination may include, but need not be limited to, estimates of the amount of time and financial costs required of affected parties, showing whether the effects of the bill or joint resolution could be substantial, as well as reasonable estimates of the recordkeeping requirements that may be associated with the bill or joint resolution; or

(2) in lieu of such evalution, a statement of the reasons why compliance by the committee with the requirements of clause (1) is impracticable.

(c) It shall not be in order for the Senate to consider any such bill or joint resolution if the report of the committee on such bill or joint resolution does not comply with the provisions of subparagraphs (a) and (b) on the objection of any Senator.

12. Whenever a committee reports a bill or a joint resolution repealing or amending any statute or part thereof it shall make a report thereon and shall include in such report or in an accompanying document (to be prepared by the staff of such committee) (a) the text of the statute or part thereof which is proposed to be repealed; and (b) a comparative print of that part of the bill or joint resolution making the amendment and of the statute or part thereof proposed to be amended, showing by stricken-through type and italics, parallel columns, or other appropriate typographical devices the omissions and insertions which would be made by the bill or joint resolution if enacted in the form recommended by the committee. This paragraph shall not apply to any such report in which it is stated that,

in the opinion of the committee, it is necessary to dispense with the requirements of this subsection to expedite the business of the Senate.

13. (a) Each committee (except the Committee on Appropriations) which has legislative jurisdiction shall in its consideration of all bills and joint resolutions of a public character within its jurisdiction, endeavor to insure that —

(1) all continuing programs of the Federal Government and of the government of the District of Columbia, within the jurisdiction of such committee or joint committee, are designed; and

(2) all continuing activities of Federal agencies, within the jurisdiction of such committee or joint committee, are carried on;

so that, to the extent consistent with the nature, requirements and objectives of those programs and activities, appropriations therefor will be made annually.

(b) Each committee (except the Committee on Appropriations) shall with respect to any continuing program within its jurisdiction for which appropriations are not made annually, review such program, from time to time, in order to ascertain whether such program could be modified so that appropriations therefor would be made annually.

TABLE OF PUBLIC LAWS

Public Law 100-17 (H.R. 2) **April 2, 1987**

A bill to authorize funds for construction of highways, for highway safety programs, and for mass transportation programs, to expand and improve the relocation assistance program, and for other purposes.

Digest: *(of those provisions under the jurisdiction of the Commerce Committee).*

Surface Transportation and Uniform Relocation Assistance of 1987

Title II: *Highway Safety Act of 1987 — Highway Safety Act of 1987* — Authorizes appropriations out of the Highway Trust Fund (other than the Mass Transit Account) for FY 1987 through 1991 for highway safety programs implemented by the National Highway Traffic Safety Administration. Sets forth the minimum amount of authorized funds which must be obligated for enforcement of the national speed limit and safety belt programs. Sets an obligation ceiling for highway safety programs for FY 1987 through 1991.

Extends from three to five fiscal years the period for which the States may receive alcohol traffic safety grants. Authorizes the Secretary to test and determine the traffic fatality prevention potential of: (1) specified drug and alcohol testing technology; and (2) certain ignition interlock devices that prohibit the operation of motor vehicles by intoxicated individuals. Requires the Secretary to report to the Congress regarding such tests.

Directs the Secretary to commission the National Academy of Sciences to study the most effective safety measures regarding the transportation of children in school buses. Requires the Academy to report the findings of such report to the Secretary and the Congress. Authorizes the Secretary to set aside funds for FY 1989 through 1991 for making grants to States to implement schoolbus safety measures which the Secretary determines are the most effective.

Amends the Surface Transportation Assistance Act of 1982 to direct the Secretary to establish final minimum standards respecting splash and spray suppression devices unless the Secretary finds that there is no available technology which can significantly: (1) reduce splash and spray; and (2) improve driver visibility.

Modifies Federal law regarding highway safety programs to require the States to establish programs that are in accordance with Federal guidelines (thus allowing more flexibility to the States which must currently comply with Federal standards). Eliminates the requirement of State driver education training programs as a condition of Federal aid. Authorizes the Secretary to determine the most effective highway safety measures through rulemaking, in consultation with the States.

Amends the Highway Safety Act of 1978 to direct the Secretary to conduct a national highway safety education and information campaign, using specified techniques and practices found to be most effective under certain Federal guidelines. Prohibits the obligation of certain authorized funds for any education or information program conducted in connection with the implementation of Federal Motor Vehicle Safety Standard 208.

Directs the Secretary to: (1) arrange with the National Academy of Sciences to conduct a study of problems facing older drivers; (2) request the Academy to report to the Secretary and the Congress regarding such study; (3) develop a pilot program of highway safety improvements to enhance the safety and mobility of older drivers; (4) encourage the States to implement such program with highway safety improvement funds; and (5) evaluate such program and report to the Congress on its effectiveness.

Rescinds a specified amount of unobligated contract authority for airport development and planning made available under the Airport and Airway Improvement Act of 1982.

Public Law 100-19 (S. J. Res. 96) **April 3, 1987**

A joint resolution designating April 3, 1987, as "Interstate Commerce Commission Day."

Digest: Designates April 3, 1987, as Interstate Commerce Commission Day.

Public Law 100-66 (H.R. 2480) **July 10, 1987**

A bill to extend temporarily the governing international fishery agreement between the United States and the Republic of Korea, and for other purposes.

Digest: Provides that a certain fishery agreement between the United States and the Republic of Korea shall remain in force and effect until the close of the congressional oversight period of 60 days, provided for in the Magnuson Fishery Conservation and Management Act, with respect to any new fishery agreement between the United States and the Republic of Korea transmitted to the Congress under such provision after May 1, 1987, or November 1, 1987, whichever is earlier.

Authorizes the Secretary of Commerce to award sea grant fellowships under the sea grant fellowship program, for a period not to exceed one year, to support the placement of qualified individuals in positions with the executive and legislative branches of the United States Government.

Public Law 100-91 (H.R. 921) **August 18, 1987**

A bill to require the Secretary of the Interior to conduct a study to determine the appropriate minimum altitude for aircraft flying over national park system units.

Digest: Directs the Secretary of the Interior, acting through the Director of the National Park Service, to conduct a study of the proper minimum altitude which should be maintained by aircraft flying over areas within units of the National Park System.

Directs the Secretary of Transportation, acting through the Federal Aviation Administration, to provide technical assistance to the Secretary of the Interior for such study.

Requires the Secretary of the Interior to report to the Congress, within three years after enactment of this act, regarding the study results.

Requires the Administrator of the Federal Aviation Administration to: (1) review, on the basis of aviation safety, current regulations pertaining to aircraft flights over units of the National Park System addressed in the study conducted by the Secretary of the Interior or other units as needed or requested; and (2) report to the Congress the results of such review together with recommendations for changes.

Authorizes appropriations for such studies.

Prohibits any fixed wing aircraft or helicopter from flying below specified minimum altitudes during such study and review periods over the surfaces of Yosemite National Park and Haleakala National Park, except as specified.

Requires the Secretary of the Interior to submit recommendations for air traffic management and noise abatement over Grand Canyon National Park to the Administrator, including flight free zones and allowing transport to specified Indian lands. Requires the Administrator to prepare and issue a final plan for the management of such air space. Requires the Secretary of the Interior to report to the Congress whether such final plan has succeeded in substantially restoring the natural quiet in the Grand Canyon National Park. Exempts certain helicopter flights of river runners from prohibition under the noise abatement plan.

Requires the Administrator to survey aircraft flights over the Boundary Waters Canoe Area Wilderness, Minnesota, and report to the appropriate congressional committees on the type and frequency of aircraft using such airspace.

Directs the Chief of the Forest Service to assess and report to the Congress within two years any adverse impacts to wilderness resources from overflights of National Forest System wilderness areas.

Authorizes appropriations.

Public Law 100-107 (H.R. 812) **August 20, 1987**

A bill to amend the Stevenson-Wydler Technology Innovation Act of 1980 to establish a National Quality Improvement Award, with the objective of encouraging American business and other organizations to practice effective quality control in the provision of their goods and services.

Digest: *Malcolm Baldrige National Quality Improvement Act of 1987* — Amends the Stevenson-Wydler Technology Innovation Act of 1980 to establish a Malcolm Baldrige National Quality Award to be evidenced by a medal.

Directs the President (on the basis of recommendations received from the Secretary of Commerce) or the Secretary of Commerce to periodically make the award to companies and other organizations which have substantially benefited the economic or social well-being of the United States through improvements in the quality of their goods and services resulting from the effective practice of quality management.

Sets forth categories in which the award may be given.

Sets forth criteria for qualification for the award.

Directs the Secretary to appoint a board of overseers to make suggestions for improvements in the award process.

Directs the Director of the National Bureau of Standards to provide information about the awards and the successful quality improvement strategies and programs of the award-winning participants to all participants and to other appropriate groups.

Provides that funding for the award program shall be from gifts from public and private sources and from fees imposed upon organizations applying for the award.

Directs the Secretary to prepare and submit to the President and the Congress, within three years after the date of enactment of this act, a report on the progress, findings, and conclusions of activities conducted pursuant to this Act, along with recommendations for possible modifications.

Public Law 100-111 (S. 1591) August 20, 1987

A bill to temporarily restrict the ability to document foreign-built fish processing vessels under the laws of the United States.

Digest: Prohibits the Secretary of the department in which the Coast Guard is operating, until October 15, 1987, notwithstanding current Federal law regarding documentation of vessels, from granting a certificate of documentation to any foreign-built vessel for which an application for documentation was submitted after July 20, 1987, for use as a fish processing vessel.

Public Law 100-112 (S. J. Res. 175) August 20, 1987

A joint resolution to recognize the efforts of the United States Soccer Federation in bringing the World Cup to the United States in 1994.

Digest: Recognizes the efforts of the United States Soccer Federation to bring the World Cup to the United States in 1994. Authorizes the President to designate the Secretary of Commerce as the official U.S. representative in any discussions with the Federation Internationale de Football Association.

Public Law 100-121 (H.R. 1163) September 30, 1987

A bill to amend chapter 101 of title 18, United States Code, to impose criminal penalties for offenses relating to certain aviation reports and records.

Digest: Amends the Federal Aviation Act of 1958 to provide criminal penalties for certain reporting and recordkeeping violations by air carriers.

Public Law 100-147 (H.R. 2782) October 30, 1987

A bill to authorize appropriations to the National Aeronautics and Space Administration for research and development; space flight, control and data communications; construction of facilities; and research and program management; and for other purposes.

Digest: *National Aeronautics and Space Administration Authorization Act of 1988* — Title I: Authorization of Appropriations for the National Aeronautics and Space Administration — Authorizes appropriations for FY 1988 to the National Aeronautics and Space Administration (NASA) for specified activities relating to: (1) research and development; (2) space flight, control, and data communications; (3) construction of facilities; and (4) research and program management.

Authorizes the NASA Administrator to transfer a specified amount from any unobligated funds for prior years (with certain exceptions) for the preparation of the Mars Observer Spacecraft for launch in 1992.

Permits appropriations for research and development and for Space Research and Technology and for Transatmospheric Research Technology programs to be used for any items of a capital nature (other than acquisition of land) which may be required at locations other than NASA installations for the performance of research and development contracts, and for grants to nonprofit institutions of higher education, or to nonprofit organizations whose primary purpose is the conduct of scientific research, for the purchase or construction of additional research facilities. Requires the Administrator of NASA to notify specified congressional officers and committees whenever the cost of a facility exceeds a specified amount. Permits funds appropriated for research and development, for space flight, control, and data communications, or for construction of facilities to remain available without fiscal year limitation.

Limits certain uses of specified funds under this act.

Permits appropriations for research and program management to be used for scientific consultations or extraordinary expenses upon the approval of the Administrator.

Permits the funds for construction of any specified facilities: (1) in the discretion of the Administrator, to be varied upward ten percent; or (2) following a report by the Administrator to specified congressional committees, to be varied upward 25 percent to meet unusual cost variations.

Permits one-half of one percent of the funds appropriated for research and development or for space flight, control and data communications to be transferred to the appropriation for construction of facilities. Authorizes the expenditure of such transferred funds, together with a specified amount of the funds appropriated for construction of facilities, to construct, expand, or modify laboratories and other installations. Requires the Administrator, 30 days before expending such funds, to notify specified congressional officers and

committees of the nature, cost, and necessity of such construction.

Prohibits, until 30 days pass after congressional receipt of a full explanation by the Administrator, the use of funds appropriated pursuant to this act for any program: (1) deleted by the Congress; (2) in excess of the amount actually authorized for the particular program under provisions for research and development, space flight, control and data communications, and research and program management; or (3) which has not been presented to either of the specified congressional committees.

Prohibits any civil space station authorized under this title from being used to: (1) carry or place in orbit any nuclear weapon or any other weapon of mass destruction; (2) install any such weapon or any celestial body; or (3) station any such weapon in space in any other manner. Permits this civil space station to be used only for peaceful purposes.

Directs the Administrator to undertake the construction of a permanently manned Space Station, for specified purposes, to become operational in 1995.

Allows the Space Station to be used for research, experimentation, and exploratory development. Prohibits the Space Station from being used by or on behalf of any department or agency to conduct the operational testing or deployment of any offensive or defensive weapon or weapons systems if in contravention of U.S. laws or treaty obligations.

Requires the Space Station to be developed and operated in a manner that supports and does not infringe on other science and space activities. Directs the Administrator to undertake the development of such advanced technologies as may be appropriate, within the level of funding authorized in this title, in order to reduce the cost of Space Station operations. Directs the Administrator to seek to have portions of the Space Station constructed and operated by the private sector where appropriate. Directs the Administrator to promote international cooperation in the Space Station program by undertaking the development, construction, and operation of the Station in conjunction with (but not limited to) the governments of Europe, Japan, and Canada. Requires the Space Station to be designed, developed, and operated in a manner that enables evolutionary enhancement.

Requires the Administrator, for each of FY 1989 through 1996, to submit a budget request to the Congress, with budget estimates for the fiscal year involved and the two succeeding fiscal years, for the capital development of the Space Station. Limits the amount for Space Station development to no more than 25 percent of the total budget submission for NASA for any one fiscal year.

Limits the amount for operation and enhancement of the Space Station to ten percent of the total budget submission for NASA for any one fiscal year.

Expresses the sense of the Congress that the launching and servicing of the Space Station should be accomplished by the most cost-effective use of space transportation systems, including the Space Shuttle and expendable launch vehicles. Directs the Administrator to report by January 15, 1988, on the cost effective use of such system for the launch of Space Station elements, considering specified factors.

Directs the Administrator to set and collect reasonable user fees for the use and maintenance of the Space Station, taking specified factors into consideration. Authorizes waivers or modifications of such fees in furtherance of specified goals and purposes.

Requires the Administrator to submit to the Congress a detailed plan for collecting reimbursable amounts for the utilization of the Space Station, by September 30, 1988.

Requires that a specified agreement between the U.S. Government and foreign entities concerning the detailed design, development, construction, operation, or utilization of the Space Station be submitted to specified congressional committees. Prohibits such an agreement from taking effect until 30 days of either House or Senate session have passed after receipt by such committees of the agreement.

Expresses the sense of the Congress concerning the geographical distribution of NASA research and development funds. Directs the Administrator to report by January 15, 1988, to specified congressional committees on consideration and exploration of such distribution during FY 1987.

Directs the Administrator to award to a domestic firm a contract that, under the use of competitive procedures, would be awarded to a foreign firm, if: (1) the final product of the domestic firm will be completely assembled in the United States; (2) when completely assembled, at least 50 percent of the final product will be domestically produced; and (3) the difference between the bids submitted by the foreign and domestic firms is not more than six percent. Makes such requirement inapplicable to the extent that: (1) applicability would not be in the public interest; (2) compelling national security considerations require otherwise; or (3) the U.S. Trade representative determines that such an award would be in violation of the General Agreement on Tariff and Trade or an international agreement to which the United States is a party. Applies such requirement only to contracts for which: (1) amounts are made available pursuant to this act; and (2) solicitations for bids are issued after the enactment of this act.

Amends the National Aeronautics and Space Act of 1958 to permit the Administrator to accept gifts and donations for the construction of a space shuttle orbiter. Provides that all gifts and donations not needed for such construction be used in tribute to the crew of the space shuttle *Challenger* and in furtherance of the exploration of space. Directs the Administrator to select the name of the space shuttle orbiter from among suggestions from elementary and secondary school students.

Expresses the sense of the Congress that the Space Shuttle is a critical national resource that should be preserved and used primarily for missions requiring its unique capabilities and that a diversified family of expendable launch vehicles should be incorporated by use into the U.S. civilian space flight program.

Directs the Administrator to establish a program for launching payloads by means of expendable launch vehicles, and if available, by commercial launch services.

Directs the Administrator to ensure that expendable launch vehicles or, if available, commercial launch services are obtained for the launch of specified payloads. Directs the Administrator to report on compliance with these requirements to specified congressional committees by January 15, 1988.

Authorizes the Administrator to enter into contracts for expendable launch vehicle services for multiyear periods and to provide for contingent liability payments and advance payments under such contracts. Allows limiting such contracts to sources within the United States when the Administrator determines it is in the public interest. Provides for payment of contract costs if funds are not available to continue a contract and it is terminated for the convenience of the Government.

Expresses the sense of the Congress that the capital investment in space satellites and vehicles should be enhanced and protected by establishing a system of servicing, rehabilitation, and repair capabilities in orbit (satellite servicing). Directs the Administrator to study satellite servicing, taking specified factors into consideration, and report on such study to the Congress by January 15, 1988.

Directs the Administrator to review the findings, recommendations, and proposed space agenda of the National Commission on Space, and submit to specified congressional committees, within 60 days of the enactment of this act, a recommendation for a long-range implementation plan, including an impact assessment of such implementation on personnel, budget, and other resources.

Amends the Commercial Space Launch Act to authorize appropriations to the Secretary of Transportation for FY 1988 to carry out such act.

Expresses the sense of the Congress that the solid rocket motor project of the space shuttle program would benefit from competition, and that an advanced solid rocket motor would enhance the margin of safety, reliability, and performance of the space shuttle. Directs the Administrator, by the date of the President's FY 1990 budget request to the Congress for NASA, to request proposals for acquiring an advanced solid rocket motor by competitive procurement. Directs the Administrator to consider various options, including constructing a government-owned and contractor-operated solid rocket motor production facility and providing for a dual source of supply of the advanced solid rocket motor. Prohibits any contract for purchase of additional solid rocket motors until such a request for proposals has been issued. Allows the Administrator to proceed with procurement of long-lead materials for the solid rocket motors from the current contractor only after certifying to specified congressional committees that such action is necessary to prevent delay in the space shuttle launch schedule. Directs the Administrator to notify specified congressional committees if such competitive procurement cannot be conducted. Requires the Administrator, no sooner than 30 days after such notice is given, to: (1) conduct a competition to select a qualified second source of supply (in addition to the current contractor) for flight sets of the redesigned solid rocket motor that is currently under development; or (2) recompete the current source of supply for flight sets of the redesigned solid rocket motor. Directs the Administrator to present a comprehensive acquisition plan for the advanced solid rocket motor, in accordance with such requirements, to specified congressional committees by March 31, 1988.

Title II: National Space Grant College and Fellowship Program — *National Space Grant College and Fellowship Act* — Establishes within the National Aeronautics and Space Administration (NASA) a national space grant college and fellowship program. Requires such program to advise the Administrator of NASA and coordinate Federal efforts.

Authorizes the Administrator to make grants or enter into contracts to assist any space grant and fellowship program for up to 66 percent of total cost. Authorizes the Administrator to make special grants for up to 100 percent of the cost of specified projects.

Authorizes the Administrator to make grants or enter into contracts for up to 100 percent of costs for identified specific national needs and problems relating to space.

Authorizes the Administrator to designate any institution of higher education as a space grant college if it maintains a balanced program in fields related to space and meets other qualifications. Authorizes the Administrator to designate an association or alliance as a space grant regional consortium if it is established to share research and facilities in any field related to space and meets other qualifications.

Directs the Administrator to support a space grant fellowship program for educational and training assistance to graduate students in fields related to space.

Directs the Administrator to establish the space grant review panel as an independent committee to advise the Administrator on implementing the program.

Requires interagency cooperation among all Federal agencies with authority over matters relating to space, authorizing the sharing of personnel, services, facilities, and information.

Directs the Administrator to report biennially to the Congress and the President on the activities of the program, subject to the review of the Directors of the Office of Management and Budget and of the Office of Science and Technology Policy.

Authorizes appropriations for FY 1988 through 1991.

Title III: Amendments to the Land Remote-Sensing Commercialization Act of 1984 — *Land Remote-Sensing Commercialization Act Amendments of 1987* — Amends the Land Remote-Sensing Commercialization Act of 1984 (the Act) to exempt contractors from a requirement to fully reimburse the Federal Government under certain circumstances in the case of research and development agreements.

Authorizes the Secretary of Commerce, following the completion of a contract under provisions for data continuity after the Landsat system, and upon 30 days' advance notice to specified congressional committees, to dispose of any Government assets (other than real property) so as to ensure continuation of the contractor's commercial activity.

Revises provisions concerning the use of experimental data from Federal research and development programs.

Adds provisions relating to the use of non-Federal data from the research and development activities of system operators or marketing entities.

Authorizes system operators to require that unenhanced data not be reproduced or disseminated by a foreign or domestic purchaser.

Public Law 100-148 (S. 1628) **October 30, 1987**

An original bill to extend the Aviation Insurance Program for 5 years.

Digest: Amends the Federal Aviation Act of 1958 to extend from 1987 to 1992 the authority of the Secretary to provide aviation insurance and reinsurance.

Public Law 100-151 (H.R. 2893) **November 3, 1987**

A bill to reauthorize the Fishermen's Protective Act.

Digest: Amends the Fishermen's Protective Act to extend, from October 1, 1987, to October 1, 1988, the termination date of provisions authorizing the Secretary of State to make reimbursements for certain losses upon the seizure of a U.S. documented commercial fishing vessel by a foreign country.

Removes the restriction of current law which limits to developing countries the provision of setting aside surplus Government vessels for use in humanitarian services.

Extends to October 22, 1989, the termination date relating to setting aside such surplus Government vessels.

Extends to November 15, 1987 (currently, October 15, 1987) the moratorium period on the documentation of foreign-built fish processing vessels.
